PORTFOLIO

• EXPERIENCE

EXPONENT SOLUTIONS: Embedded Systems & Android Development Intern (Sep 2026 - Present)

• Developing Android applications with backend API integration.
• Working on embedded systems, firmware, and hardware-software integration.
• Implementing communication between microcontrollers and application backends.

• TECHNICAL SKILLS

- **Languages:** C/C++ (Arduino), Python, Java
- **Embedded Systems:** ESP32, ESP8266, , Arduino IDE, Firmware Development, WiFi UART
- **Web:** HTML, CSS, JavaScript
- **Android Development:** Android Studio, Java, Android UI Development, API Integration
- **Backend & APIs:** REST APIs, API integration, HTTP
- **Tools:** Git, Github, Android Studio, Arduino IDE
- **Core Concepts:** Data Structures & Algorithms, OOP

• PROJECTS

VISION-AID: Assistive System for Visually Impaired *(GITHUB REPO)* (Feb 2026 - July 2026)

• Developed an Android assistive app integrating ESP32-based hardware and real-time sensor data.
• Integrated YOLO-based detection and SOS emergency alert system.
• Built Wi-Fi communication pipeline connecting embedded hardware with backend APIs.
• Implemented voice feedback and emergency assistance features for accessibility.

ENCRYPT-PLUS: Cryptographic Security & Quantum Readiness Analyzer *(GITHUB REPO)* (Feb 2026 - Apr 2026)

• Developed a cryptographic security analyzer for repositories and codebases.
• Implemented quantum-readiness assessment for cryptographic algorithms.
• Generated reports to track cryptographic security findings.
• Automated vulnerability detection and security risk analysis.

COPIFY: Web-Based File Transfer Platform *(GITHUB REPO)* (Feb 2026 - July 2026)

• Developed a responsive Text transfer web application using Next.js and React.
• Integrated Supabase for backend services and data management.
• Implemented file transfer workflows using Next.js API routes.
• Configured application deployment on Render with environment-based setup.

• ACHIEVEMENTS

- **Winner** at GenCodeX Hackathon **(200+ Teams)** (Mar 2026)
- **Finalist** at Brainwave 2.0 Hackathon at Delhi Technological University **(800+ Teams)** (Jan 2026)
- **Finalist** at Zinnovatio Ideathon (Chandigarh University) **(890+ Teams)** (Oct 2026)

• EDUCATION

- B. Tech in Computer Science (Data Science) (GGSIPU, 2025-2029)
- CBSE Class XII (JNV Delhi-II, 2025)
- CBSE Class X (JNV Delhi-II, 2023)
